

The proposed mapping of STCC codes to SAT codes is a tool created by the Mexican railroads to facilitate the transition to the Carta Porte. This is not a final nor SAT approved tool and was developed to aid in meeting the Carta Porte implementation date. Ultimately, customers are responsible for including the correct SAT codes on their shipping documents.

La propuesta de mapeo de códigos STCC a códigos SAT es una herramienta creada por los ferrocarriles mexicanos para facilitar la transición a la Carta Porte. No es una herramienta definitiva ni aprobada por el SAT y fue desarrollada para ayudar a cumplir con la fecha de implementación de la Carta Porte. En última instancia, los clientes son responsables de incluir los códigos SAT correctos en sus documentos de envíos.

The proposed mapping of STCC codes to SAT codes is a tool created by the Mexican railroads to facilitate the transition to the Carta Porte. This is not a final nor SAT approved tool and was developed to aid in meeting the Carta Porte implementation date. Ultimately, customers are responsible for including the correct SAT codes on their shipping documents.

The proposed mapping of STCC codes to SAT codes is a tool created by the Mexican railroads to facilitate the transition to the Carta Porte. This is not a final nor SAT approved tool and was developed to aid in meeting the Carta Porte implementation date. Ultimately, customers are responsible for including the correct SAT codes on their shipping documents.

La propuesta de mapeo de códigos STCC a códigos SAT es una herramienta creada por los ferrocarriles mexicanos para facilitar la transición a la Carta Porte. No es una herramienta definitiva ni aprobada por el SAT y fue desarrollada para ayudar a cumplir con la fecha de implementación de la Carta Porte. En última instancia, los clientes son responsables de incluir los códigos SAT correctos en sus documentos de envíos.

The proposed mapping of STCC codes to SAT codes is a tool created by the Mexican railroads to facilitate the transition to the Carta Porte. This is not a final nor SAT approved tool and was developed to aid in meeting the Carta Porte implementation date. Ultimately, customers are responsible for including the correct SAT codes on their shipping documents.

The proposed mapping of STCC codes to SAT codes is a tool created by the Mexican railroads to facilitate the transition to the Carta Porte. This is not a final nor SAT approved tool and was developed to aid in meeting the Carta Porte implementation date. Ultimately, customers are responsible for including the correct SAT codes on their shipping documents.

The proposed mapping of STCC codes to SAT codes is a tool created by the Mexican railroads to facilitate the transition to the Carta Porte. This is not a final nor SAT approved tool and was developed to aid in meeting the Carta Porte implementation date. Ultimately, customers are responsible for including the correct SAT codes on their shipping documents.

La propuesta de mapeo de códigos STCC a códigos SAT es una herramienta creada por los ferrocarriles mexicanos para facilitar la transición a la Carta Porte. No es una herramienta definitiva ni aprobada por el SAT y fue desarrollada para ayudar a cumplir con la fecha de implementación de la Carta Porte. En última instancia, los clientes son responsables de incluir los códigos SAT correctos en sus documentos de envíos.
